Traffic Advisory ***Hanover Street Drawbridge Traffic Modifications***

The Baltimore City Department of Transportation today announced that maintenance and testing is being performed on the Hanover Street Drawbridge. DOT officials report the testing of circuitry and components may affect evening and morning peak hour traffic. There may be times when the drawbridge will be required to be opened for testing. This may inconvenience motorists traveling the route of the Hanover Street Drawbridge.

Motorists are encouraged to leave early to allow for extra travel time, use alternate routes and expect possible congestion and delays. Please exercise caution when traveling in the vicinity
